

Attachment 6 – Intemann

Large-scale fluoridation dental studies showing water fluoridation is NOT effective in reducing dental caries

The following is a collation, hopefully comprehensive, of large-scale studies of the dental effect of fluoridation, all showing no significant dental benefit from water fluoridation.

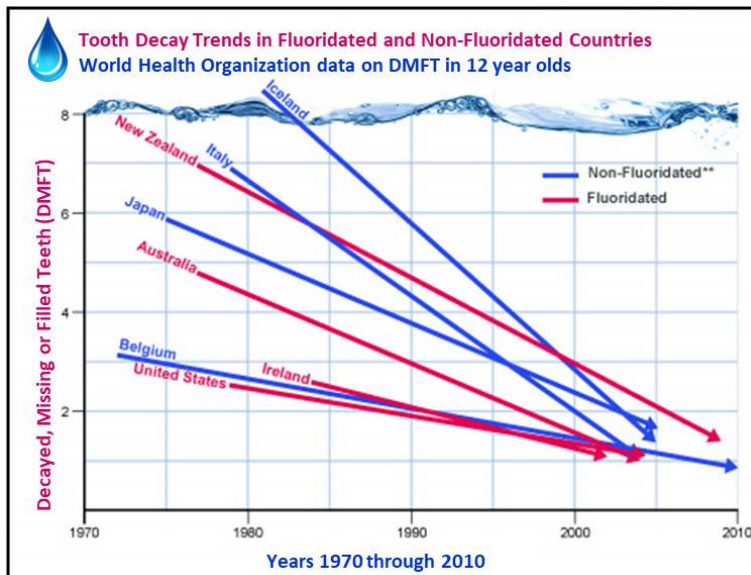

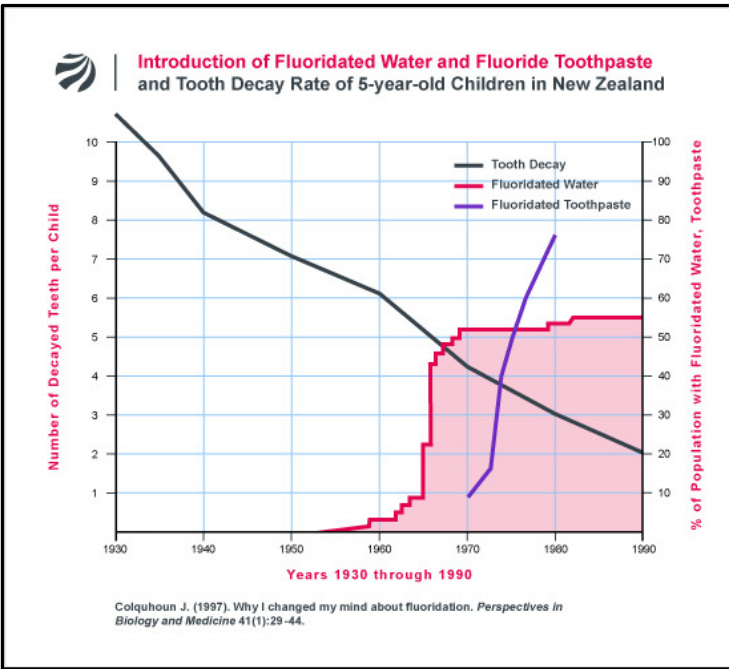

- * Armfield JM and Spencer AJ. "Consumption of Nonpublic Water: Implications for Children's Caries Experience," *Community Dentistry and Oral Epidemiology* 32, no. 4, 2004.
- * Brunelle, JA and Carlos JP. "Recent trends in dental caries in US children and the effect of water fluoridation," *Journal of dental research* 69, 1990.
- * Cohen, H and Locker, D. "The Science and Ethics of Water Fluoridation," *Journal of the Canadian Dental Association*, 2002.
- * Colquhoun J. "New Evidence on Fluoridation", *Social Science & Medicine* 19, no. 11, 1984.
- * Colquhoun J. "Child Dental Health Differences in New Zealand", *Community Health Studies* 11, no. 2, 1987.
- * Colquhoun J. "Flawed Foundation: A Re-examination of the Scientific Basis for a Dental Benefit from Fluoridation," *Community Health Studies* 14, no. 3, 1990.
- * Colquhoun J. "Possible Explanations for Decline in Tooth Decay in New Zealand," *Community Dentistry and Oral Epidemiology* 20, no. 3. 1992.
- * Colquhoun J. "Dental Caries Among Children in NZ," *Comm. Dentistry and Oral Epidemiology* 23, no. 6/95.
- * Colquhoun J. "Why I changed my mind about fluoridation." *Perspectives in Biology & Medicine*. 1997.
- * Diesendorf M. "The mystery of declining tooth decay." *Nature* 322:125-129. 1986.
